

Community Reference Panel

Expression of Interest Form

Overview

The MSAC Community Reference Panel is part of MSAC's commitment to better understanding the needs of visitors and identifying opportunities for improving day-to-day operations and service delivery.

The key function of this panel is for MSAC management to engage with community representatives to:

- Gain information and feedback regarding how we best service our members, visitors and other user groups
- Identify issues, concerns and feedback that need to be taken into consideration during projects and day-to-day operations
- Collect input to assist MSAC in the process of developing long-term, strategic plans and opportunities

Panel members act in an informing and advisory capacity, but do not have any authority or responsibility in the operations or activities at MSAC. Community Reference Panel positions hold a 12-month term and are voluntary.
